

CHIBUCHI VICTORY OFFIA

Software Engineer | Full-Stack Developer | IT Specialist
Toronto, ON, Canada | victoryoffia@gmail.com | +1 437 328 4348

PROFESSIONAL SUMMARY

Software Engineer with a BSc in Software Engineering and hands-on experience in full-stack development, IT operations, and cybersecurity. Experienced in building and supporting web applications and APIs using Python, Django, PHP/Laravel, React.js, and Node.js. Strong background in secure system practices, testing, troubleshooting, technical support, and team collaboration. Brings a practical, user-focused approach to software delivery and technology operations.

TECHNICAL SKILLS

Languages & Web Frameworks	Python, PHP, JavaScript, HTML, CSS
Databases	Django, Laravel, React.js, Node.js
Software Development	SQL/NoSQL, SQLite, MySQL
Tools & Practices	REST APIs, responsive UI, authentication, testing, debugging, refactoring, third-party integrations
Cybersecurity & IT	Git/version control, system optimization, deployment, technical support
	Security monitoring, vulnerability assessment, security audits, access controls, cybersecurity awareness, IT governance

PROFESSIONAL EXPERIENCE

IT Executive (NYSC) Swiss International Rancho Valeria - Warri, Delta State, Nigeria	Jun 2025 - Jun 2026
- Led day-to-day IT operations and aligned technology initiatives with organizational goals and business priorities. - Oversaw technology systems, infrastructure upgrades, and digital transformation initiatives. - Established and supported IT governance, cybersecurity, and data protection practices to safeguard organizational assets. - Improved technology processes through automation, system optimization, and adoption of emerging technologies. - Worked with executive leadership to assess technology needs, evaluate risk, and support informed business decisions. - Led and mentored cross-functional IT teams while promoting accountability, collaboration, and continuous improvement.	
Security software engineering Emutare Technologies Pty Ltd	Feb 2025 - Aug 2026
- Monitored and analyzed security incidents, cyber threats, and vulnerabilities across networks, systems, and applications. - Supported vulnerability assessments and implementation of preventive security controls. - Collaborated with IT teams on secure system architecture, network configuration, and access-control strategies. - Performed security audits, log reviews, and continuous monitoring to identify anomalies and reduce attack surfaces. - Delivered cybersecurity awareness training to staff to promote safer technology practices and reduce social-engineering risks.	
Software Developer Eleastar Technology Limited	Jun 2024 - Jan 2025
- Developed backend systems and APIs using PHP and Laravel for scalable web applications. - Collaborated with cross-functional team members to build, maintain, and enhance production web platforms. - Designed responsive user interfaces with a focus on usability and user experience. - Performed unit, integration, and system testing to validate functionality and maintain software quality. - Integrated third-party services and system components to extend application capabilities. - Debugged, optimized, and refactored existing systems to improve performance and maintainability.	
IT Support / Software Trainee Modasco Nigeria Limited	2023
- Supported internal IT operations and software-related projects that contributed to daily business activities. - Recognized with a Certificate of Appreciation for contribution, dedication, professionalism, and teamwork.	
Web Development Tutor NIIT Warri - Global Adpis Computers Ltd.	Jan 2023 - Jun 2024
- Delivered training on modern web technologies to learners with different levels of technical experience. - Mentored students in responsive design, UI/UX fundamentals, Git/version control, and clean coding practices.	

- Taught backend concepts including APIs, SQL/NoSQL databases, authentication, Node.js, and Django.
- Supported coding exercises, debugging, project development, and portfolio building.

- Created lesson plans and learning materials that simplified complex technical concepts and supported student success.

EDUCATION

Bachelor of Science in Software Engineering

Sep 2020 - Sep 2024

Babcock University - Ilishan-Remo, Ogun State, Nigeria

Relevant coursework: software design and architecture, algorithms and data structures, database systems, web technologies, and software project management. Completed a final-year capstone project demonstrating end-to-end software development skills.

CERTIFICATIONS & PROFESSIONAL TRAINING

Python Programming & Web Development - NIIT Warri | Mar 2025
Python, HTML, CSS, JavaScript, Django, SQLite, MySQL, and application deployment.

Certificate of Completion - Multi-Track IT Program - New Horizons Worldwide | Jul 2024
CompTIA A+ Core 1 & 2; Configuring Client Operating Systems; Certified Secure Computer User; Oracle 12c Fundamentals & Administrator; Java SE8 OCA & OCP.

ADDITIONAL RECOGNITION

Certificate of National Service - NYSC - National Youth Service Corps | Jun 2025 - Jun 2026

Certificate of Recognition - Swiss International Rancho Valeria | May 2026

Certificate of Appreciation - Modasco Nigeria Limited | 2023
